PROFESSIONAL EXPERIENCES

SETA INTERNATIONAL

Sep 2021 - Jul 2022

Position: Software Developer

Project: IoT Connectivity Management

- **Project Description:** A single-pane, top-down view of all your connected IoT devices throughout their lifecycle, identify problems, and take actions automatically—vastly reducing the amount of time and resources needed to manage your device deployment.
- **Team size:** 15
- **Responsibility:**
 - Develop and fix the application based on requirements.
 - Develop modules of the front-end system.
 - Research adequate packages to seek the best solutions.
 - Prepare documents and technical guide for developers joining in the middle of the project.

INTERESTS

In my free time, I also play around with some pet projects. I developed a webpage <https://vietlehoang2000.info> to introduce a little more about myself & other projects, a to-do web-app reminding me tasks: <https://to-do-web-app-vietlehoang.herokuapp.com/>
